

Homework #1

Course: COP 3223C

Semester: Spring 2016

Due Date: January 22, 2016

Credit Value: 2% of final grade

Your First Program

- 1) Use Code::Blocks to write and execute the following Hello Earth program.

```
// HW#1 - <your first and last names>
// My first C program
#include <stdio.h>
int main(void)
{
    printf("Hello Earth!\n");
    return 0;
}
```

Submit your program source code through the Webcourses homework submission.

Please name the file as HW1-<last name> and put your name as the first comment line.
